VERSATILITY FOR ALL TERRAINS

Agricultural tyres, switchable differential lock and an engine that can cope with steep slopes ensure excellent traction in difficult terrain.

ENGINE DESIGNED FOR INCLINES

Equipped with oil and fuel pump, oil pressure switch and strong cooling system to protect the engine even under tough conditions.

STEEP SLOPES & LONG GRASS

You can mow even in inaccessible locations! The AS 940 4WD mows and mulches thick, long grass mixed with scrub.

SURFING MOWER DECK

Self-contained mower deck with AS cross-blade system. The main blade cuts the undergrowth and the cross-blade shreds it to a fine mulch. To protect against damage, the surfing mower deck moves upwards to avoid uneven terrain.

FOUR-WHEEL DRIVE

The permanent all-wheel drive improves traction when travelling uphill and ensures more powerful, safer braking on the way down.

Recommended retail price inc. VAT.
